SUMMARY

I am a driven software developer with a solid educational background, holding a Bachelor's degree in Computer Applications (BCA). My expertise in Python is backed by hands-on experience, including developing a Billing System for retail shops. I am eager to contribute my technical abilities to a dynamic IT team, driving impactful projects and fostering innovation. I excel in solving both front-end and back-end challenges, thrive in collaborative team environments.

TECHNICAL SKILLS

Programming skills : C , javascript, Python (Core + Advance).

Web development : HTML, CSS, JavaScript.

Databases : SQL (MySQL), MongoDB, SQLite.

Framework : Django

PROJECTS

Python - DBMS Based Billing System for Retail Shops

- Developed a Python application for generating customer bills in physical retail shops.
- Implemented features to add new customers and products, storing their details in a database.
- Automated the billing process by integrating customer and product information for efficient bill generation.
- Using – Python, Tkinter, MySQL.

Tiles E-commerce Web Application

- Developed a full-stack web application for showcasing and managing tiles products using the Django framework.
- Integrated a contact form to enable easy customer inquiries, with backend handling for storing and sending messages securely.
- Utilized Django's admin panel for efficient content and product management by site administrators.

EDUCATION

Ganpat University , Mehsana

March/2026

Bachelor of Computer Applications (BCA)

- Currently pursuing a comprehensive program focused on computer science fundamentals, web development, programming, and database management.

Gujarat Secondary and Higher Secondary Education Board

March/2023

Faith Higher Secondary School

- Percentage – 70%

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Gujarati.
- **Certifications:** Full-Stack Web Development with Django.
- **Soft Skills:** Problem-solving, teamwork, time management, ability to learn quickly.
